DMB – Kim Panzer; Brian Kincaid; Geetha Sampathkumar

January 22, 2026, Meeting Agenda:

ITPAC agenda
January 22 FINAL.pdf

Note: Meeting agenda was posted online at www.fairfaxcounty.gov/informationtechnology/itpac and was sent to ITPAC members via email. This document will be posted on the ITPAC website.

ITPAC COMMITTEE MATTERS: Today's meeting was called to order at 8:05 A.M.

Verifying a Quorum and Clear Audio

Because each member of ITPAC is participating in this meeting from a separate location, it was necessary to verify that a quorum of members is participating, and that each member's voice is clear, audible, and at an appropriate volume for all members. Accordingly, a rollcall was conducted, and each ITPAC member participating in this meeting was asked to state their name, the district/group they represent. It was

confirmed that a quorum was present, and that each member's voice could be adequately heard by all other members of ITPAC.

Electronic Meeting

Brian Heffern confirmed that today's meeting is allowed to be held remotely under current Virginia law. To fully conform, ITPAC is required to note in the minutes what type of electronic communication is being used, and how we have arranged for public access to this meeting. ITPAC conducted this meeting electronically through a dedicated Microsoft Teams video conference, and the public could access this meeting by using meeting number **26094169123150** and enter passcode **yn9zo3yD** or live audio of the meeting may be accessed by dialing: **1-571-429-6328** and entering the conference code **982483359#**.

Minutes

A motion to approve the minutes from the 9/18/25 and 11/20/25 meetings was multiply moved, seconded, and approved unanimously.

Membership Matters

- Welcome and introduction of Mr. Nitin Pradhan, representing the Hunter Mill District. Mr. Pradhan gives a brief introduction, including his career background and interest in joining ITPAC.
- The terms of Mark Lay and Rajni Goel have expired. They may continue to serve pending re-authorization or other action.
- The Providence District seat remains vacant. Supervisor Palchik's office is aware and working to identify a candidate.
- Memberships expiring on 12/31/26: Sean Rastatter (Springfield), Jephthe Martinez (Mason), and Carter Bates (Braddock).

DISCUSSION:

The **"Issue of the Day."** segment is next on the agenda. This interactive discussion is placed on the agenda prior to any formal DIT presentations, to encourage meaningful discussion and conversation on IT topics of interest. This is an opportunity for ITPAC members to share insight into IT-related challenges and issues with which they are currently dealing and allow for discussion and/or DIT staff to ask questions.

- A lengthy discussion about Fairfax County's 311 program. Discussion ensues on Prince William County's approach compared to Fairfax County's model focusing more on self-service, generative AI etc. A more hybrid approach. Some online portals of other local jurisdictions are shown. It is noted these have been stood up in a relatively short period of time. Matt Harrison responds that the County is making progress and wants to get to the point of being able to fulfill a transaction not just route a call. Maura Power gives context on how 311 is currently structured and the move towards trying to get to a more unified interface/portal utilizing AI and other technology. Transitioning from the established non-emergency public safety line (703) 691-2131 and 703-Fairfax entry points is a process as Fairfax citizens have been utilizing these as entry points for some time. There are numerous agency-specific lines that also exist and it takes time to integrate the business needs. It's primarily about making current resources more efficient and productive while avoiding increased costs. Anita Rao provides some context on the process of getting to a single-entry point. Currently the County is enhancing conversational AI to help assist with getting services to people more seamlessly. The team is working on central landing page concepts and eventually getting to personalization on the website where people will be able to create accounts etc.
- Conversation transitions to AI. County being intentional and strategic in implementation. ITPAC has been instrumental in the development of policy and procedure. Will re-circulate documents for new members. Rich Kostro notes that as we think about AI solutions it is important to remember our

most vulnerable populations. A lot of greatness is possible from the agentic AI world, but we need to keep that human perspective/impact at the forefront as we go down this road.

- Question is raised about what County is doing to prepare the Fairfax population for how AI is evolving. Looking for additional public conversation on the impacts to the average person. Maura Power responds on what some county agencies are doing, and she provides examples of some of the programs sponsored by the Fairfax County Public Library, Department of Family Services, and Neighborhood and Community Services, among others. Another aspect is AI incubator type programs led by the Department of Economic Initiatives and the Board Economic Initiatives Committee. Also noted as an opportunity area is the potential for additional work with FCPS on AI-related capabilities for both staff and students.

AGENDA:

The first presentation is titled **FOCUS Roadmap / Migration to the Cloud** - Main Presenter: Sam Nandi, Program Manager, DIT

- Sam Nandi provides a brief overview of FOCUS, the core operational platform for enterprise systems utilized by both Fairfax County Government and Fairfax County Public Schools. Built on an SAP framework, FOCUS supports critical business functions including finance, budgeting, procurement, and human resources
- Overview of the roadmap to move the core ECC Finance, Procurement, Public Sector Management, Treasury functions to SAP S/4 HANA by 2027 and the implications if this move is not undertaken in a timely fashion.
- Business benefits of migration include enhanced real time insights, improved efficiency in operations, enhanced ease of use, and innovative real-time analytics, dashboards, and workflows.
- Additional business benefits included regulatory compliance features, enhanced security and integrity, mobile accessibility, scalability/future readiness, and reduced maintenance costs.
- Business benefits by Process Area (Finance, Funds Management, Grant Management, Contract and Lease Management, Procurement, Reporting, etc., are all highlighted.
- SAP/FOCUS - Planned Enhancements timeline:
 - Transition to Identity security cloud for SAP/FOCUS – Fall 2026
 - SAP Travel and Expense - Spring 2027
 - SAP/FOCUS Migration to Cloud - Begins 2027

The next presentation is a **Planning and Land Use System (PLUS) SaaS Migration – Project Update** - Main Presenter: Randhir Singh, Program Manager, DIT

- Randhir Singh provides a high level summary of the Planning and Land Use System (PLUS) project from its beginning in 2019 as a project to replace dozens of legacy land use systems and interfaces with a consolidated modern enterprise solution that supports the county's zoning and development plan review, development tracking, building and environmental health permit/license issuance, code enforcement, inspection, and cashing to the current 2026 migration to Accela Cloud Software as a Service (SaaS) for future readiness.
- Project benefits are numerous, including enhanced scalability and flexibility, increased innovation and agility, enhanced security and resilience, and improved focus on delivering value-added product enhancements to business.
- Project timeline:
 - Completed - Planning, Develop and User Acceptance Testing phases of the project completed in August 2025
 - In Progress - Actively remediating functionality gaps identified between on-premises and SaaS versions to be validated by county by July 2026.
 - Planned - Retesting, Deployment, and Post Cutover Stabilization by December 2026.

CONCLUSION:

Prior to meeting adjournment, brief discussions on the status of the Joint BOS-FCPS IT Committee are provided as well as a timeline/process for completing ITPAC's letter to the Board of Supervisors on the FY 2027 Advertised Budget Plan.

The meeting adjourned at 9:50 A.M.

The next regular ITPAC meeting is scheduled for March 12, 2026, at 8:00 A.M. It will be an in-person meeting held in Room 232 of the Fairfax County Government Center.
